

JOSHUA ADAMS

Rock, Paper, Simple's Head Honcho, Joshua Adams, lives and breathes entrepreneurship, branding, and marketing, in fact we are not sure he would survive if removed from it for an extended period of time... and we are afraid to try!

Joshua started programming at 11 years old and began his freelance web career at 14. His entrepreneurial spirit and years of experience have led him to become an expert in the fields of web development, digital marketing, and branding. After years of dedicated learning and experience, Joshua founded Rock Paper Simple in 2011 with the mission of empowering businesses who are awesome at what they do by developing their brand and digital presence.

His leadership of the Rock Paper Simple team has helped companies both large and small build marketing-focused websites, expand their digital presence, refine their brand, and turn leads into sales. His personal success as a business owner and web developer has made Joshua an indispensable resource to the success of companies such as Health First, Satcom, Long Doggers, Space Coast Daily, Craig Technologies, Adventure HQ and Sorenson Moving and Storage.

Joshua's hard work and impact in the community has been recognized by LEAD Brevard who selected him as a finalist for the distinguished "4 under 40" award in 2016. In the same year he was a semifinalist for Bright House Networks Regional Business Awards. In 2011 he was awarded the Business of the Year award by the Cocoa Beach Chamber of Commerce. Under his leadership, Rock Paper Simple has also proudly racked up Addy awards every year since its founding.

Joshua's success as an entrepreneur has earned him a place on the board of directors of the Founders Forum, an organization dedicated to the success of entrepreneurs in Brevard County. Furthermore, he has had the pleasure of sharing from his personal experience and expertise in marketing and entrepreneurship as a guest speaker at the University of Central Florida, Eastern Florida State College, and the Florida Institute of Technology.

Personally, he is never satisfied with the status quo and is always working hard to find the simplest, but most effective ways to create results for his clients and ventures. You will frequently hear him say "Ever Forward!", as he believes the best option is always, always to move forward. He lives to empower talented people and dedicates his work in every endeavor to the glory of God.

He enjoys spending time outside of work with his fiancé, Diana, and is thrilled to be marrying her in the Spring of 2018. He spends any other time he can find (extra time... what?!) rooting for the Pittsburgh Steelers, playing sports (preferably ultimate frisbee or soccer), rocking his strategy board game hobby and serving at his local church.
