POLICY:

In an effort to broaden community exposure and solicit support from local business constituents and community volunteers, Family Partnerships of Central Florida (FPoCF) may institute the establishment of an auxiliary board and open committee membership to volunteers. The auxiliary board and board committee volunteers are intended to support an increase in public awareness and community engagement and to solicit and broaden the agencies donor base, both monetarily and through community service.

The overall role of board governance is critical in the oversight and decision making of Family Partnerships of Central Florida Family of Agencies. Whereas an advisory group and/or community volunteers via an auxiliary board and expanded board committee membership may compliment the effectiveness of the official, or formal, Governance Board of Directors as it works to carry out a specific, complex, major roles and initiatives under the direction of the FPoCF FOA Governance Board of Directors and President and Chief Executive Officer in accordance with the mission, vision and purpose of Family Partnerships of Central Florida Family of Agencies.

The Family Partnerships of Central Florida auxiliary board and board committee volunteers will be a compilation of individuals who bring unique knowledge and skills, which complement the knowledge and existing skills of the governance board members and staff in order to achieve the goals and objectives of the organization more effectively.

The auxiliary board and board committee members will not have formal authority to govern the organization, that is, the auxiliary board and board committee members cannot issue directives, which must be followed. Rather, the auxiliary board and board committee members act as service agents to assist in the achievement of the objectives of the organization.

The auxiliary board and board committee members, like governance boards of directors, should have a chair that drives organization and development of the advisory group. The auxiliary board
